# *Titanomachy*

*Illustrated by Alex Maxwell-Clarke*

Graphic Novel based on the decade long war between the Titan gods and Olympian gods from Greek mythology.

Rendered digitally using Procreate, printed in an A4 format.

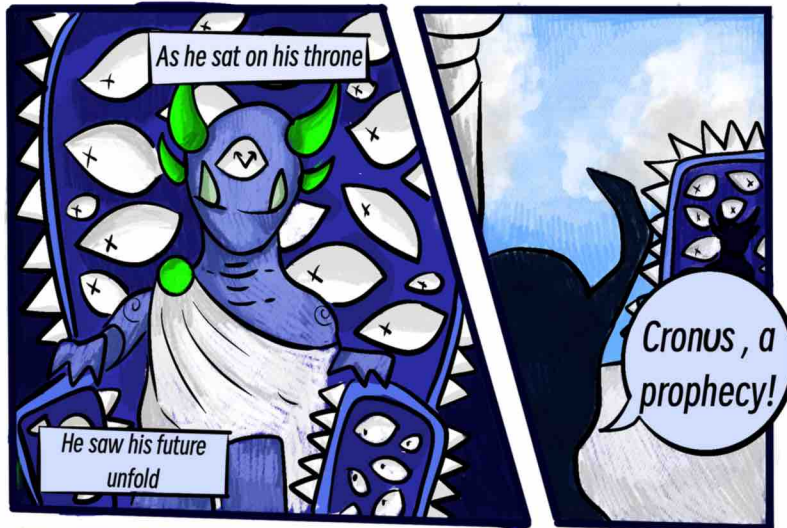

Cronus stood upon the world. Ruler of the land and sky, brutish and sly.

Rhea watched anxiously fearing for her children

A betrayal so unexpected the skies fill with rage and the rivers flow with tears of the fallen

As he sat on his throne

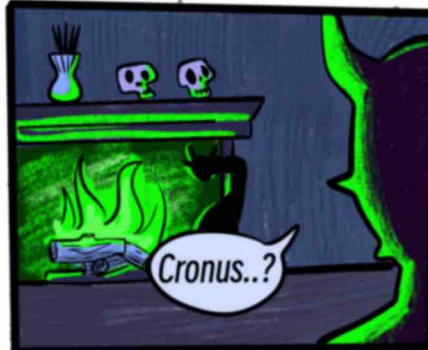

He saw his future unfold

Cronus, a prophecy!

Cronus was threatened, insecure of losing his throne and enraged at the idea of his own spawn betraying him. He knew he had to act..

All at the hand of his child,

Cronus..?

Many years later Zeus was in the place walls serving Cronus

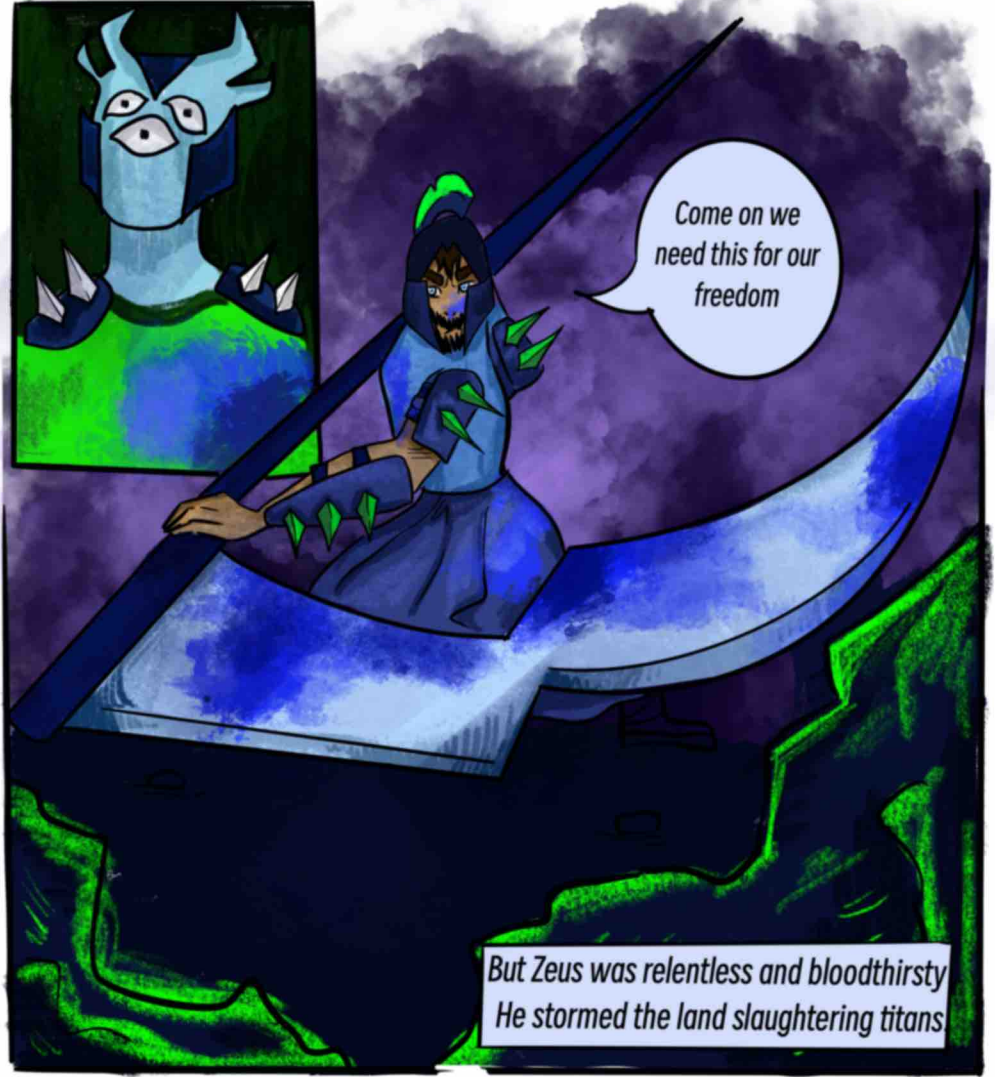

He serves Cronus, bringing his chalice to quench his thirst

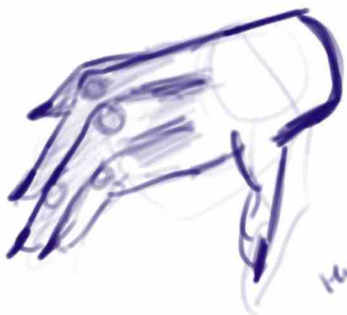

Many were crushed by boulders ,  
some shell shocked

Bloodshed became  
commonplace as soldiers gave  
their lives to the titans

Come on we  
need this for our  
freedom

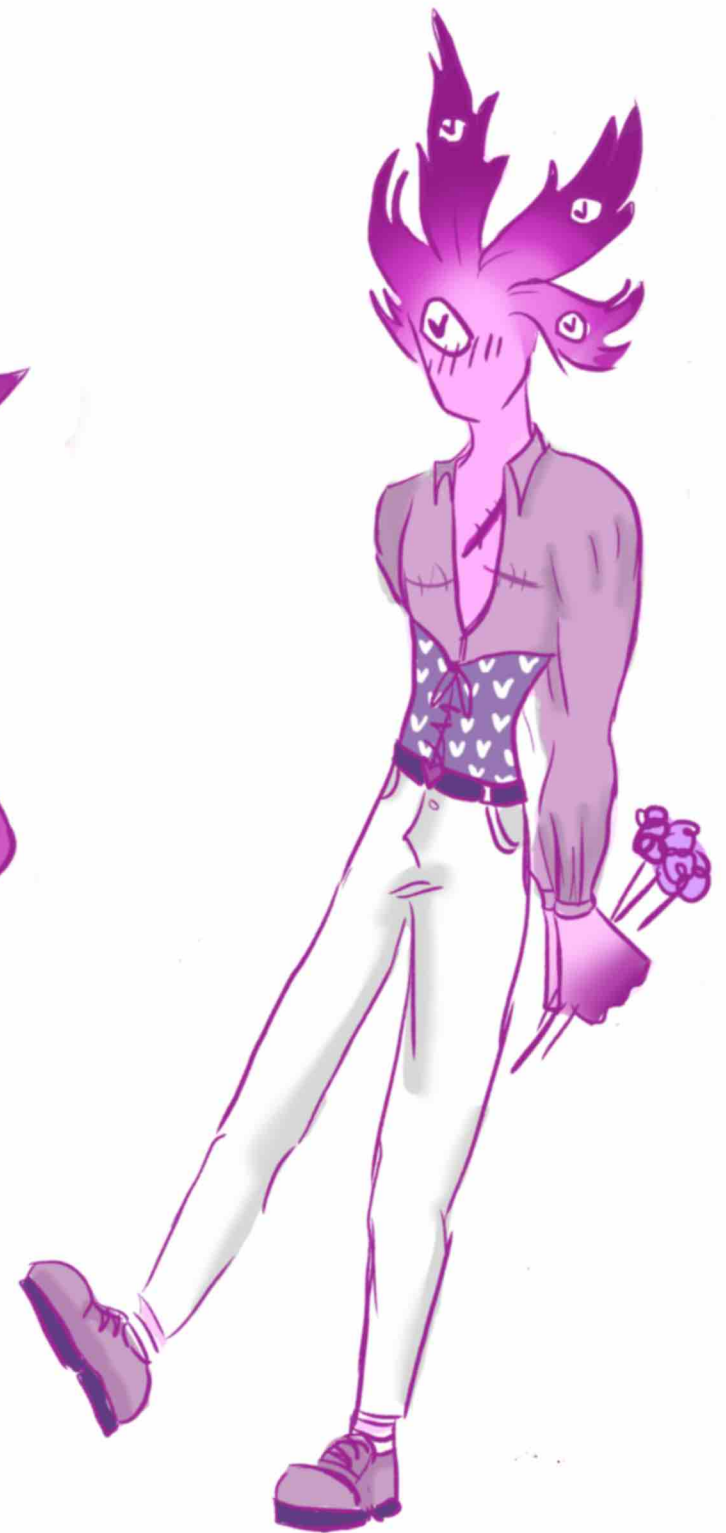

But Zeus was relentless and bloodthirsty  
He stormed the land slaughtering titans
